

**Art. 2**

- Scholarship winners must obtain the Degree in Medicine and Surgery in 6 years of study. However, an additional 6-month period, for the sole purpose of obtaining the degree, is granted. After this period, the student will have to pay the academic tuition fees regularly required in accordance with the Fees Regulation;
- Scholarships may not be combined with other scholarships. If more than a scholarship is assigned to the student, the student is required to choose only one of the allocated benefits;
- If students who are scholarship winners decide to withdraw from the degree course within the beginning of the first exam session (January 2024), Humanitas University will assign the available scholarships to the enrolled students who, ranked in the positions immediately following the withdrawn students;
- If any scholarship awards are lost due to the lack of the merit requirements for renewal at the end of the first year, Humanitas University reserves the chance to provide for a new allocation on the basis of criteria and procedures that will be shared through a specific official communication.

#### **Art. 5 Tax implications of the scholarship**

In order to **ensure a net amount exemption** equal to what is specified in art. 1 of these Regulations, Humanitas University undertakes fiscal burdens in terms of taxation for each scholarship - provided for by the regulations in force. Please, note that scholarships are assimilated to employees' earnings pursuant to art. 50 of the DPR n. 917/86. Therefore, the beneficiary students will receive a relevant receipt and will have to autonomously manage the obligations and tax implications which derive from receiving these amounts.
